CALIFORNIA RESIDENTIAL PURCHASE AGREEMENT (RPA-CA PAGE 8 OF 8)

A
CALIFORNIA
ASSOCIATION BUYER'S INSPECTION ADVISORY
OF REALTORS [®] (C.A.R. Form BIA-A, Revised 10/02)
Property Address: 123 May n Street Any City CA ("Property").
A. IMPORTANCE OF PROPERTY INVESTIGATION: The physical condition of the land and improvements being purchased is not
guaranteed by either Seller or Brokers. For this reason, you should conduct thorough investigations of the Property personally and with
professionals who should provide written reports of their investigations. A general physical inspection typically does not cover all aspects
of the Property nor items affecting the Property that are not physically located on the Property. If the professionals recommend further
investigations, including a recommendation by a pest control operator to inspect inaccessible areas of the Property, you should contact
qualified experts to conduct such additional investigations.
B. BUYER RIGHTS AND DUTIES: You have an affirmative duty to exercise reasonable care to protect yourself, including discovery of
the legal, practical and technical implications of disclosed facts, and the investigation and verification of information and facts that you
know or that are within your diligent attention and observation. The purchase agreement gives you the right to investigate the Property. If
you exercise this right, and you should, you must do so in accordance with the terms of that agreement. This is the best way for you to
protect yourself. It is extremely important for you to read all written reports provided by professionals and to discuss the results of

take other action based upon items discovered in your investigations or disclosed by Seller. If Seller is unwilling or unable to satisfy your requests, or you do not want to purchase the Property in its disclosed and discovered condition, you have the right to cancel the agreement if you act within specific time periods. If you do not cancel the agreement in a timely and proper manner, you may be in breach of contract.

inspections with the professional who conducted the inspection. You have the right to request that Seller make repairs, corrections or

C. SELLER RIGHTS AND DUTIES: Seller is required to disclose to you material facts known to him/her that affect the value or desirability of the Property. However, Seller may not be aware of some Property defects or conditions. Seller does not have an obligation to inspect the Property for your benefit nor is Seller obligated to repair, correct or otherwise cure known defects that are disclosed to you or previously unknown defects that are discovered by you or your inspectors during escrow. The purchase agreement obligates Seller to make the Property available to you for investigations.

D. BROKER OBLIGATIONS: Brokers do not have expertise in all areas and therefore cannot advise you on many items, such as soil stability, geologic or environmental conditions, hazardous or illegal controlled substances, structural conditions of the foundation or other improvements, or the condition of the roof, plumbing, heating, air conditioning, electrical, sewer, septic, waste disposal, or other system. The only way to accurately determine the condition of the Property is through an inspection by an appropriate professional selected by you. If Broker gives you referrals to such professionals, Broker does not guarantee their performance. You may select any professional of your choosing. In sales involving residential dwellings with no more than four units, Brokers have a duty to make a diligent visual inspection of the accessible areas of the Property and to disclose the results of that inspection. However, as some Property defects or conditions may not be discoverable from a visual inspection, it is possible Brokers are not aware of them. If you have entered into a written agreement with a Broker, the specific terms of that agreement will determine the nature and extent of that Broker's duty to you. **YOU ARE STRONGLY ADVISED TO INVESTIGATE THE CONDITION AND SUITABILITY OF ALL ASPECTS OF THE PROPERTY. IF YOU DO NOT DO SO, YOU ARE ACTING AGAINST THE ADVICE OF BROKERS.**

- E. YOU ARE ADVISED TO CONDUCT INVESTIGATIONS OF THE ENTIRE PROPERTY, INCLUDING, BUT NOT LIMITED TO THE FOLLOWING:
 - GENERAL CONDITION OF THE PROPERTY, ITS SYSTEMS AND COMPONENTS: Foundation, roof, plumbing, heating, air conditioning, electrical, mechanical, security, pool/spa, other structural and non-structural systems and components, fixtures, built-in appliances, any personal property included in the sale, and energy efficiency of the Property. (Structural engineers are best suited to determine possible design or construction defects, and whether improvements are structurally sound.)
 - 2. SQUARE FOOTAGE, AGE, BOUNDARIES: Square footage, room dimensions, lot size, age of improvements and boundaries. Any numerical statements regarding these items are APPROXIMATIONS ONLY and have not been verified by Seller and cannot be verified by Brokers. Fences, hedges, walls, retaining walls and other natural or constructed barriers or markers do not necessarily identify true Property boundaries. (Professionals such as appraisers, architects, surveyors and civil engineers are best suited to determine square footage, dimensions and boundaries of the Property.)
- 3. WOOD DESTROYING PESTS: Presence of, or conditions likely to lead to the presence of wood vesticying pests and organisms and other infestation or infection. Inspection reports covering these items can be separated into two sections: Section 1 identifies areas where infestation or infection is evident. Section 2 identifies areas where there are conditions likely to lead to infestation or infection. A registered structural pest control company is best suited to perform these inspections.
- 4. SOIL STABILITY: Existence of fill or compacted soil, expansive or contracting soil, susceptibility to slippage, settling or movement, and the adequacy of drainage. (Geotechnical engineers are best suited to determine such conditions, causes and remedies.)
